

30 HP Rotary Vane VRU Compressor Package (Standard Unit)

COMPASS MODEL NO: EM30-RV7D

- Application:** Tank Vapour Recovery
- Objective:** A cost effective tank vapour compressor package, Ps (atm), Pd 30 -50 psig
- Compass Solution:** Our standard vane vapour recovery package is available in three sizes and has been designed for sweet or sour gas with the ability to customize the compressor and driver selection to meet a variety of discharge pressures and flow rates. This vapour recovery unit includes a variable speed driver and inlet make-up valve for capacity control as well as a circulating vane jacket cooling system for improved vane life and maximum operating range flexibility.

* Also available in 10 and 50 HP, 1800 rpm electric motor drive.

Major Equipment Specifications

Compressor:

Ro-Flo model 7D rotary vane compressor complete with circulating jacket cooling system

Drive:

30 HP, 1800 rpm electric motor drive

Scrubber:

16" horizontal inlet scrubber

Control Panel:

Allen Bradley – Micro Logix PLC control system
